### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Jason Pahng on 6/15/2010.

- Dependent claim 16 is changed to depend off of claim 14 as claim 15 was canceled.
- In the specification on p. 1, insert the following new paragraph at the next line below the Title of the invention:

This application is a national stage application under 35 U.S.C §371 from PCT application No. PCT/KR05/01965, filed 6/23/2005, which claims the priority benefit of the Republic of Korea Application No. 10-2004-0047260, filed 6/23/2004.

### ***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance: In regards to independent claim 14, the limitation that the piston body has first and second check valves at both the front and rear side of the piston body, wherein each of the valves comprises an opening and closing plate that does not have any holes is not found in the

Art Unit: 3767

prior art and would not have been obvious to one having ordinary skill in the art at the time the invention was made. This negative limitation of not having holes in the opening and closing plates is seen in Applicant's Figures 7-9 and is supported by Applicant's specification. In regards to independent claim 25, the limitation that the check valves of the piston body are disposed at the front and rear side of the piston body as well as between a filter and rear side of the piston body is not found in the prior art and would not have been obvious to one having ordinary skill in the art at the time the invention was made. The prior art of record teaches a filter disposed between the two check valves, not proximal to both of the check valves as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
